ORDER

APPLICATION 14112

PERMIT 11517

LICENSE 10941

ORDER ALLOWING CHANGE IN PLACE OF USE

WHEREAS:

1. License 10941 was issued to Yuba County Water District and Oroville-Wyandotte Irrigation District and was recorded with the County Recorder of Butte County on January 28, 1980 in Book 2483, Page 182.
2. License 10941 was issued to Yuba County Water District and Oroville-Wyandotte Irrigation District and was filed with the County Recorder of Plumas County on January 28, 1980 in Volume 2, Page 84.
3. A petition for change in place of use has been filed with the State Water Resources Control Board and said Board has determined that good cause for such change has been shown.
4. The Board has determined that the petitioned change does not constitute the initiation of a new right nor operate to the injury of any other lawful user of water.
5. A one-time loss of fish in Sly Creek Reservoir will occur when the reservoir is drawn down for construction of the new powerplant.
6. The Lindernia-Eleocharis-Rorippa plant community in Little Grass Valley Reservoir, a source of food for geese and other wildlife, is expected to be partially lost due to project operation changes causing lower reservoir levels.
7. The Board has received complaints from the Department of Fish and Game and U. S. Forest Service alleging that the Licensee has consistently allowed fish bypass flows to fall below required amounts at South Fork Project facilities.
8. Construction of the proposed Sly Creek Powerplant will increase the incentive for the Licensee to continue to reduce fish bypass flows.

NOW, THEREFORE, IT IS ORDERED THAT:

1. The place of use under this license shall be as follows:

Water will be returned to Lost Creek within SE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 19, T20N, R8E, MDB&M, South Fork Feather River within SW $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 33, T20N, R6E, MDB&M, and to the Feather River within NW $\frac{1}{4}$ of SE $\frac{1}{4}$ of Section 2, T19N, R4E, MDB&M.

2. The Licensee shall develop with the Department of Fish and Game a program to restock Sly Creek Reservoir with fish subsequent to its being emptied for construction. The Licensee shall submit the program to the Board for approval. If the Federal Energy Regulatory Commission establishes a program to mitigate the one-time loss of fish in Sly Creek Reservoir as part of its requirements, the District may submit the program to the Board for consideration as the mitigation in lieu of a separate program to be developed with the Department of Fish and Game.
3. The Licensee shall develop with the Department of Fish and Game a program to mitigate the loss of Lindernia-Eleocharis-Rorippa plant community in Little Grass Valley Reservoir. The program shall be submitted to the Board for approval. If the Federal Energy Regulatory Commission establishes a program to mitigate this loss as part of its requirements, the Licensee may submit that program to the Board for consideration as the mitigation in lieu of a separate program to be developed with the Department of Fish and Game.
4. The Licensee shall submit quarterly reports of daily streamflow at the following USGS gaging stations:
 - a. No. 11394800, South Fork Feather River above Little Grass Valley Reservoir, California.
 - b. No. 11395030, South Fork Feather River below Little Grass Valley Reservoir, California.
 - c. No. 11395200, South Fork Feather River below diversion dam near Strawberry, California.
 - d. No. 11395150, South Fork Tunnel near Strawberry, California.
 - e. No. 11413250, Slate Creek Tunnel near Strawberry, California.
 - f. No. 11413300, Slate Creek below diversion dam near Strawberry, California.
 - g. No. 11396200, South Fork Feather River below Forbestown Dam, California.

The Licensee shall use the daily streamflows at the aforementioned seven USGS gaging stations to calculate the daily fish bypass releases and natural flows and submit quarterly reports of fish bypass releases and natural flows at the USGS gaging stations Nos. 11395030, 11395200, 11413300, and 11396200.

Licensee shall allow representatives of the Board and other parties, as may be authorized from time to time by the Board, reasonable access to project works to determine compliance with the terms of this license.

All rights and privileges under this license including method of diversion, method of use and quantity of water diverted are subject to the continuing authority of the Board in accordance with law and in the interest of the public welfare to prevent waste, unreasonable use, unreasonable method of use or unreasonable method of diversion of said water.

Reports shall be filed promptly by licensee on appropriate forms which will be provided for the purpose from time to time by the Board.

The right hereby confirmed to the diversion and use of water is restricted to the point or points of diversion herein specified and to the lands or place of use herein described.

This license is granted and licensee accepts all rights herein confirmed subject to the following provisions of the Water Code:

Section 1625. Each license shall be in such form and contain such terms as may be prescribed by the Board.

Section 1626. All licenses shall be under the terms and conditions of this division (of the Water Code).

Section 1627. A license shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code) but no longer.

Section 1628. Every license shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a license is issued takes the license subject to the conditions therein expressed.

Section 1629. Every licensee, if he accepts a license does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any license granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any licensee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any licensee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Section 1630. At any time after the expiration of twenty years after the granting of a license, the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State shall have the right to purchase the works and property occupied and used under the license and the works built or constructed for the enjoyment of the rights granted under the license.

Section 1631. In the event that the State, or any city, city and county, municipal water district, irrigation district, lighting district, or political subdivision of the State so desiring to purchase and the owner of the works and property cannot agree upon the purchase price, the price shall be determined in such manner as is now or may hereafter be provided by law for determining the value of property taken in eminent domain proceedings.
